Farmers' Markets that accept Link cards

The Illinois EBT Wireless Project will enable up to 50 Illinois farmers' markets to purchase wireless machines that accept Link, debit and credit cards by providing each market with a \$1,200 federal grant. This will allow Illinois to nearly double the amount of farmers' markets and direct-marketing farmers authorized to accept Supplemental Nutrition Assistance Program (SNAP) benefits using a Link card.

Below is a list of the farmers' markets selected to participate in the wireless grant program as of July 24, 2012. Below the list of grant participants is a list of farmers' markets and direct-marketing farmers that are authorized to accept SNAP benefits as of January 2012, but are not part of the grant program. All together, nearly 100 markets will accept Link cards.
